

EGIS TNEL İLETMECİLİĐİ

Health and Safety Policy

Our Health and Safety Policies as Egis Tnel İletmeciliđi, which operates Eurasia Tunnel, are;

- To ensure that tunnel management services including maintenance, tolling, traffic management and traffic safety activities are performed safely in accordance with national and international occupational health and safety rules,
- To provide healthy and safe working environment for prevention of occupational accidents and diseases that may affect employee health,
- Consultation and participation of employees and their representatives on occupational health and safety issues,
- Evaluating the performance of occupational health and safety practices and ensuring continuous improvement of performance together with employees and employee representatives,
- To fulfill all legal and other conditions that are subject to occupational health and safety issues,
- To ensure that all employees are provided with all legal and other necessary training on occupational health and safety issues,
- To maximize the safety of both Egis Tnel İletmeciliđi employees and third parties while providing services within the framework of legislation,
- To ensure the establishment of occupational health and safety targets in line with this policy,
- Determining occupational health and safety risks and opportunities, conducting risk assessments, taking necessary measures against all defined risks to eliminate hazards or minimize their effects, evaluating the measures taken and making necessary changes,
- Establishing an Emergency Action Plan, keeping necessary human resources and other equipment on hand, and revising if necessary,
- To organize planned / unplanned emergency drills and to ensure that all employees actively participate in drills.
